via e-mail

Dear Ms. Bakos:

On October 14, 2020, the *New York Post* published a report detailing how Hunter Biden used the position and influence of his father, now-President Joe Biden, for personal gain with the apparent awareness of President Biden.¹ This article raised doubts about President Biden's earlier denial of ever speaking to his son about his international business dealings.² The *Post* reported on an email in which a Ukrainian businessman urged Hunter Biden to "use [his] influence to convey a message / signal, etc. to stop what we consider to be politically motivated actions."³ In another email, the same businessman thanked Hunter Biden for arranging a meeting with his father, calling it "an honor and pleasure."⁴ The *Post* reported that these emails came from a laptop belonging to Hunter Biden that he had abandoned in a Delaware computer shop.⁵

On October 19, 2020, you signed a public statement attempting to discredit the contents of the *New York Post*'s reporting about Hunter Biden.⁶ This statement emphasized the national security credentials of you and the other signatories, implying that the assertions and conclusions in the statement were grounded in information unavailable to other Americans. Referencing this unique experience, you wrote:

It is for all these reasons that we write to say that the arrival on the US political scene of emails purportedly belonging to Vice President Biden's son Hunter, much of it related to his time serving on the Board of the Ukrainian gas company Burisma, has all the classic earmarks of a Russian information operation.⁷

Although this statement acknowledged that you had seen no actual “evidence” of Russian involvement with respect to the publication of Hunter Biden’s emails, you nonetheless conveyed a “deep[] suspicio[n] that the Russian government played a significant role in the case.”⁸ Later in the statement, you went further to state a “view”—not merely a suspicion anymore—“that the Russians are involved in the Hunter Biden email issue”⁹

Your public statement served as a basis for Democrat operatives to try to delegitimize the scandalous allegations about Hunter Biden and the Biden family. On the same day as your statement, *Politico* published a story about the statement, with the conclusive headline, “Hunter Biden story is Russian disinfo, dozens of former intel officials say.”¹⁰ Departing from the statement’s careful wording, the *Politico* story quoted one signatory to the letter as being confident that “once again the Russians are interfering” in our elections.¹¹ Fifteen minutes after *Politico* published its story, Jen Psaki, who now serves as Press Secretary to the President, tweeted a link to the *Politico* story.¹² The Biden campaign repeatedly cited your statement to dismiss the allegations against Hunter Biden.¹³ During the final presidential debate, Vice President Biden also dismissed concerns about Hunter Biden’s international business dealings as part of a “Russian plan.”¹⁴

Your public statement was consistent with a broader effort to minimize and censor the *New York Post*’s reporting about Hunter Biden and the Biden family. National news organizations called the allegations about Hunter Biden “dubious” and a “non-scandal”; CBS News reporter Leslie Stahl said the allegations “can’t be verified”; and NPR called it a “waste . . . of time” and a “pure distraction.”¹⁵ Separately, Twitter and Facebook restricted access to the *New York Post*’s reporting about Hunter Biden, with Twitter locking the *Post*’s account and Facebook deferring to a so-called independent fact-check that never occurred.¹⁶ These efforts likely affected public awareness of the serious allegations surrounding the Biden family in the crucial weeks before the 2020 election.

We now know from subsequent reporting that the *New York Post*’s article about Hunter Biden was not, as you and your co-signatories alleged, part of a “Russian information

At best, the public statement was a reckless attempt by you and your co-signatories to erroneously opine about purported election interference. At worse—and more likely—the public statement was a deliberate and coordinated effort to mislead the American people about information relevant to the 2020 presidential election by invoking your national security experience to falsely suggest that the allegations about Hunter Biden were not based in fact.

The concerted effort to suppress public dissemination of the serious allegations about Hunter Biden and the Biden family, as first reported in October 2020 by the *New York Post*, was a grave disservice to American citizens’ informed participation in our democracy. Dr. James B. Bruce
via e-mail

Dear Dr. Bruce:

On October 14, 2020, the *New York Post* published a report detailing how Hunter Biden used the position and influence of his father, now-President Joe Biden, for personal gain with the apparent awareness of President Biden.¹ This article raised doubts about President Biden's earlier denial of ever speaking to his son about his international business dealings.² The *Post* reported on an email in which a Ukrainian businessman urged Hunter Biden to "use [his] influence to convey a message / signal, etc. to stop what we consider to be politically motivated actions."³ In another email, the same businessman thanked Hunter Biden for arranging a meeting with his father, calling it "an honor and pleasure."⁴ The *Post* reported that these emails came from a laptop belonging to Hunter Biden that he had abandoned in a Delaware computer shop.⁵

On October 19, 2020, you signed a public statement attempting to discredit the contents of the *New York Post*'s reporting about Hunter Biden.⁶ This statement emphasized the national security credentials of you and the other signatories, implying that the assertions and conclusions in the statement were grounded in information unavailable to other Americans. Referencing this unique experience, you wrote:

It is for all these reasons that we write to say that the arrival on the US political scene of emails purportedly belonging to Vice President Biden's son Hunter, much of it related to his time serving on the Board of the Ukrainian gas company Burisma, has all the classic earmarks of a Russian information operation.⁷

Although this statement acknowledged that you had seen no actual “evidence” of Russian involvement with respect to the publication of Hunter Biden’s emails, you nonetheless conveyed a “deep[] suspicio[n] that the Russian government played a significant role in the case.”⁸ Later in the statement, you went further to state a “view”—not merely a suspicion anymore—“that the Russians are involved in the Hunter Biden email issue”⁹

Your public statement served as a basis for Democrat operatives to try to delegitimize the scandalous allegations about Hunter Biden and the Biden family. On the same day as your statement, *Politico* published a story about the statement, with the conclusive headline, “Hunter Biden story is Russian disinfo, dozens of former intel officials say.”¹⁰ Departing from the statement’s careful wording, the *Politico* story quoted one signatory to the letter as being confident that “once again the Russians are interfering” in our elections.¹¹ Fifteen minutes after *Politico* published its story, Jen Psaki, who now serves as Press Secretary to the President, tweeted a link to the *Politico* story.¹² The Biden campaign repeatedly cited your statement to dismiss the allegations against Hunter Biden.¹³ During the final presidential debate, Vice President Biden also dismissed concerns about Hunter Biden’s international business dealings as part of a “Russian plan.”¹⁴

Your public statement was consistent with a broader effort to minimize and censor the *New York Post*’s reporting about Hunter Biden and the Biden family. National news organizations called the allegations about Hunter Biden “dubious” and a “non-scandal”; CBS News reporter Leslie Stahl said the allegations “can’t be verified”; and NPR called it a “waste . . . of time” and a “pure distraction.”¹⁵ Separately, Twitter and Facebook restricted access to the *New York Post*’s reporting about Hunter Biden, with Twitter locking the *Post*’s account and Facebook deferring to a so-called independent fact-check that never occurred.¹⁶ These efforts likely affected public awareness of the serious allegations surrounding the Biden family in the crucial weeks before the 2020 election.

We now know from subsequent reporting that the *New York Post*’s article about Hunter Biden was not, as you and your co-signatories alleged, part of a “Russian information

At best, the public statement was a reckless attempt by you and your co-signatories to erroneously opine about purported election interference. At worse—and more likely—the public statement was a deliberate and coordinated effort to mislead the American people about information relevant to the 2020 presidential election by invoking your national security experience to falsely suggest that the allegations about Hunter Biden were not based in fact.

The concerted effort to suppress public dissemination of the serious allegations about Hunter Biden and the Biden family, as first reported in October 2020 by the *New York Post*, was a grave disservice to American citizens’ informed participation in our democracy. We are investigating the role that the public statement played in this effort. Accordingly, please provide the following material:

2. Produce all documents and communications referring or relating to the “Public Statement on the Hunter Biden Emails” dated October 19, 2020.

Mr. David Cariens
c/o Central Intelligence Agency
via e-mail

Dear Mr. Cariens:

On October 14, 2020, the *New York Post* published a report detailing how Hunter Biden used the position and influence of his father, now-President Joe Biden, for personal gain with the apparent awareness of President Biden.¹ This article raised doubts about President Biden's earlier denial of ever speaking to his son about his international business dealings.² The *Post* reported on an email in which a Ukrainian businessman urged Hunter Biden to "use [his] influence to convey a message / signal, etc. to stop what we consider to be politically motivated actions."³ In another email, the same businessman thanked Hunter Biden for arranging a meeting with his father, calling it "an honor and pleasure."⁴ The *Post* reported that these emails came from a laptop belonging to Hunter Biden that he had abandoned in a Delaware computer shop.⁵

On October 19, 2020, you signed a public statement attempting to discredit the contents of the *New York Post*'s reporting about Hunter Biden.⁶ This statement emphasized the national security credentials of you and the other signatories, implying that the assertions and conclusions in the statement were grounded in information unavailable to other Americans. Referencing this unique experience, you wrote:

It is for all these reasons that we write to say that the arrival on the US political scene of emails purportedly belonging to Vice President Biden's son Hunter, much of it related to his time serving on the Board of the Ukrainian gas company Burisma, has all the classic earmarks of a Russian information operation.⁷

Although this statement acknowledged that you had seen no actual “evidence” of Russian involvement with respect to the publication of Hunter Biden’s emails, you nonetheless conveyed a “deep[] suspicio[n] that the Russian government played a significant role in the case.”⁸ Later in the statement, you went further to state a “view”—not merely a suspicion anymore—“that the Russians are involved in the Hunter Biden email issue”⁹

Your public statement served as a basis for Democrat operatives to try to delegitimize the scandalous allegations about Hunter Biden and the Biden family. On the same day as your statement, *Politico* published a story about the statement, with the conclusive headline, “Hunter Biden story is Russian disinfo, dozens of former intel officials say.”¹⁰ Departing from the statement’s careful wording, the *Politico* story quoted one signatory to the letter as being confident that “once again the Russians are interfering” in our elections.¹¹ Fifteen minutes after *Politico* published its story, Jen Psaki, who now serves as Press Secretary to the President, tweeted a link to the *Politico* story.¹² The Biden campaign repeatedly cited your statement to dismiss the allegations against Hunter Biden.¹³ During the final presidential debate, Vice President Biden also dismissed concerns about Hunter Biden’s international business dealings as part of a “Russian plan.”¹⁴

Your public statement was consistent with a broader effort to minimize and censor the *New York Post*’s reporting about Hunter Biden and the Biden family. National news organizations called the allegations about Hunter Biden “dubious” and a “non-scandal”; CBS News reporter Leslie Stahl said the allegations “can’t be verified”; and NPR called it a “waste . . . of time” and a “pure distraction.”¹⁵ Separately, Twitter and Facebook restricted access to the *New York Post*’s reporting about Hunter Biden, with Twitter locking the *Post*’s account and Facebook deferring to a so-called independent fact-check that never occurred.¹⁶ These efforts likely affected public awareness of the serious allegations surrounding the Biden family in the crucial weeks before the 2020 election.

We now know from subsequent reporting that the *New York Post*’s article about Hunter Biden was not, as you and your co-signatories alleged, part of a “Russian information

At best, the public statement was a reckless attempt by you and your co-signatories to erroneously opine about purported election interference. At worse—and more likely—the public statement was a deliberate and coordinated effort to mislead the American people about information relevant to the 2020 presidential election by invoking your national security experience to falsely suggest that the allegations about Hunter Biden were not based in fact.

The concerted effort to suppress public dissemination of the serious allegations about Hunter Biden and the Biden family, as first reported in October 2020 by the *New York Post*, was a grave disservice to American citizens’ informed participation in our democracy. Mr. Glenn Gerstell
c/o National Security Agency
via e-mail

Dear Mr. Gerstell:

On October 14, 2020, the *New York Post* published a report detailing how Hunter Biden used the position and influence of his father, now-President Joe Biden, for personal gain with the apparent awareness of President Biden.¹ This article raised doubts about President Biden's earlier denial of ever speaking to his son about his international business dealings.² The *Post* reported on an email in which a Ukrainian businessman urged Hunter Biden to "use [his] influence to convey a message / signal, etc. to stop what we consider to be politically motivated actions."³ In another email, the same businessman thanked Hunter Biden for arranging a meeting with his father, calling it "an honor and pleasure."⁴ The *Post* reported that these emails came from a laptop belonging to Hunter Biden that he had abandoned in a Delaware computer shop.⁵

On October 19, 2020, you signed a public statement attempting to discredit the contents of the *New York Post*'s reporting about Hunter Biden.⁶ This statement emphasized the national security credentials of you and the other signatories, implying that the assertions and conclusions in the statement were grounded in information unavailable to other Americans. Referencing this unique experience, you wrote:

It is for all these reasons that we write to say that the arrival on the US political scene of emails purportedly belonging to Vice President Biden's son Hunter, much of it related to his time serving on the Board of the Ukrainian gas company Burisma, has all the classic earmarks of a Russian information operation.⁷

Although this statement acknowledged that you had seen no actual “evidence” of Russian involvement with respect to the publication of Hunter Biden’s emails, you nonetheless conveyed a “deep[] suspicio[n] that the Russian government played a significant role in the case.”⁸ Later in the statement, you went further to state a “view”—not merely a suspicion anymore—“that the Russians are involved in the Hunter Biden email issue”⁹

Your public statement served as a basis for Democrat operatives to try to delegitimize the scandalous allegations about Hunter Biden and the Biden family. On the same day as your statement, *Politico* published a story about the statement, with the conclusive headline, “Hunter Biden story is Russian disinfo, dozens of former intel officials say.”¹⁰ Departing from the statement’s careful wording, the *Politico* story quoted one signatory to the letter as being confident that “once again the Russians are interfering” in our elections.¹¹ Fifteen minutes after *Politico* published its story, Jen Psaki, who now serves as Press Secretary to the President, tweeted a link to the *Politico* story.¹² The Biden campaign repeatedly cited your statement to dismiss the allegations against Hunter Biden.¹³ During the final presidential debate, Vice President Biden also dismissed concerns about Hunter Biden’s international business dealings as part of a “Russian plan.”¹⁴

Your public statement was consistent with a broader effort to minimize and censor the *New York Post*’s reporting about Hunter Biden and the Biden family. National news organizations called the allegations about Hunter Biden “dubious” and a “non-scandal”; CBS News reporter Leslie Stahl said the allegations “can’t be verified”; and NPR called it a “waste . . . of time” and a “pure distraction.”¹⁵ Separately, Twitter and Facebook restricted access to the *New York Post*’s reporting about Hunter Biden, with Twitter locking the *Post*’s account and Facebook deferring to a so-called independent fact-check that never occurred.¹⁶ These efforts likely affected public awareness of the serious allegations surrounding the Biden family in the crucial weeks before the 2020 election.

We now know from subsequent reporting that the *New York Post*’s article about Hunter Biden was not, as you and your co-signatories alleged, part of a “Russian information

At best, the public statement was a reckless attempt by you and your co-signatories to erroneously opine about purported election interference. At worse—and more likely—the public statement was a deliberate and coordinated effort to mislead the American people about information relevant to the 2020 presidential election by invoking your national security experience to falsely suggest that the allegations about Hunter Biden were not based in fact.

The concerted effort to suppress public dissemination of the serious allegations about Hunter Biden and the Biden family, as first reported in October 2020 by the *New York Post*, was a grave disservice to American citizens’ informed participation in our democracy. The concerted effort to suppress public dissemination of the serious allegations about Hunter Biden and the Biden family, as first reported in October 2020 by the *New York Post*, was a grave disservice to American citizens’ informed participation in our democracy. Mr. Don Hepburn

via e-mail

Dear Mr. Hepburn:

On October 14, 2020, the *New York Post* published a report detailing how Hunter Biden used the position and influence of his father, now-President Joe Biden, for personal gain with the apparent awareness of President Biden.¹ This article raised doubts about President Biden's earlier denial of ever speaking to his son about his international business dealings.² The *Post* reported on an email in which a Ukrainian businessman urged Hunter Biden to "use [his] influence to convey a message / signal, etc. to stop what we consider to be politically motivated actions."³ In another email, the same businessman thanked Hunter Biden for arranging a meeting with his father, calling it "an honor and pleasure."⁴ The *Post* reported that these emails came from a laptop belonging to Hunter Biden that he had abandoned in a Delaware computer shop.⁵

On October 19, 2020, you signed a public statement attempting to discredit the contents of the *New York Post*'s reporting about Hunter Biden.⁶ This statement emphasized the national security credentials of you and the other signatories, implying that the assertions and conclusions in the statement were grounded in information unavailable to other Americans. Referencing this unique experience, you wrote:

It is for all these reasons that we write to say that the arrival on the US political scene of emails purportedly belonging to Vice President Biden's son Hunter, much of it related to his time serving on the Board of the Ukrainian gas company Burisma, has all the classic earmarks of a Russian information operation.⁷

Although this statement acknowledged that you had seen no actual “evidence” of Russian involvement with respect to the publication of Hunter Biden’s emails, you nonetheless conveyed a “deep[] suspicio[n] that the Russian government played a significant role in the case.”⁸ Later in the statement, you went further to state a “view”—not merely a suspicion anymore—“that the Russians are involved in the Hunter Biden email issue”⁹

Your public statement served as a basis for Democrat operatives to try to delegitimize the scandalous allegations about Hunter Biden and the Biden family. On the same day as your statement, *Politico* published a story about the statement, with the conclusive headline, “Hunter Biden story is Russian disinfo, dozens of former intel officials say.”¹⁰ Departing from the statement’s careful wording, the *Politico* story quoted one signatory to the letter as being confident that “once again the Russians are interfering” in our elections.¹¹ Fifteen minutes after *Politico* published its story, Jen Psaki, who now serves as Press Secretary to the President, tweeted a link to the *Politico* story.¹² The Biden campaign repeatedly cited your statement to dismiss the allegations against Hunter Biden.¹³ During the final presidential debate, Vice President Biden also dismissed concerns about Hunter Biden’s international business dealings as part of a “Russian plan.”¹⁴

Your public statement was consistent with a broader effort to minimize and censor the *New York Post*’s reporting about Hunter Biden and the Biden family. National news organizations called the allegations about Hunter Biden “dubious” and a “non-scandal”; CBS News reporter Leslie Stahl said the allegations “can’t be verified”; and NPR called it a “waste . . . of time” and a “pure distraction.”¹⁵ Separately, Twitter and Facebook restricted access to the *New York Post*’s reporting about Hunter Biden, with Twitter locking the *Post*’s account and Facebook deferring to a so-called independent fact-check that never occurred.¹⁶ These efforts likely affected public awareness of the serious allegations surrounding the Biden family in the crucial weeks before the 2020 election.

We now know from subsequent reporting that the *New York Post*’s article about Hunter Biden was not, as you and your co-signatories alleged, part of a “Russian information

Mr. Richard Ledgett
via e-mail

Dear Mr. Ledgett:

On October 14, 2020, the *New York Post* published a report detailing how Hunter Biden used the position and influence of his father, now-President Joe Biden, for personal gain with the apparent awareness of President Biden.¹ This article raised doubts about President Biden's earlier denial of ever speaking to his son about his international business dealings.² The *Post* reported on an email in which a Ukrainian businessman urged Hunter Biden to "use [his] influence to convey a message / signal, etc. to stop what we consider to be politically motivated actions."³ In another email, the same businessman thanked Hunter Biden for arranging a meeting with his father, calling it "an honor and pleasure."⁴ The *Post* reported that these emails came from a laptop belonging to Hunter Biden that he had abandoned in a Delaware computer shop.⁵

On October 19, 2020, you signed a public statement attempting to discredit the contents of the *New York Post*'s reporting about Hunter Biden.⁶ This statement emphasized the national security credentials of you and the other signatories, implying that the assertions and conclusions in the statement were grounded in information unavailable to other Americans. Referencing this unique experience, you wrote:

It is for all these reasons that we write to say that the arrival on the US political scene of emails purportedly belonging to Vice President Biden's son Hunter, much of it related to his time serving on the Board of the Ukrainian gas company Burisma, has all the classic earmarks of a Russian information operation.⁷

Although this statement acknowledged that you had seen no actual “evidence” of Russian involvement with respect to the publication of Hunter Biden’s emails, you nonetheless conveyed a “deep[] suspicio[n] that the Russian government played a significant role in the case.”⁸ Later in the statement, you went further to state a “view”—not merely a suspicion anymore—“that the Russians are involved in the Hunter Biden email issue”⁹

Your public statement served as a basis for Democrat operatives to try to delegitimize the scandalous allegations about Hunter Biden and the Biden family. On the same day as your statement, *Politico* published a story about the statement, with the conclusive headline, “Hunter Biden story is Russian disinfo, dozens of former intel officials say.”¹⁰ Departing from the statement’s careful wording, the *Politico* story quoted one signatory to the letter as being confident that “once again the Russians are interfering” in our elections.¹¹ Fifteen minutes after *Politico* published its story, Jen Psaki, who now serves as Press Secretary to the President, tweeted a link to the *Politico* story.¹² The Biden campaign repeatedly cited your statement to dismiss the allegations against Hunter Biden.¹³ During the final presidential debate, Vice President Biden also dismissed concerns about Hunter Biden’s international business dealings as part of a “Russian plan.”¹⁴

Your public statement was consistent with a broader effort to minimize and censor the *New York Post*’s reporting about Hunter Biden and the Biden family. National news organizations called the allegations about Hunter Biden “dubious” and a “non-scandal”; CBS News reporter Leslie Stahl said the allegations “can’t be verified”; and NPR called it a “waste . . . of time” and a “pure distraction.”¹⁵ Separately, Twitter and Facebook restricted access to the *New York Post*’s reporting about Hunter Biden, with Twitter locking the *Post*’s account and Facebook deferring to a so-called independent fact-check that never occurred.¹⁶ These efforts likely affected public awareness of the serious allegations surrounding the Biden family in the crucial weeks before the 2020 election.

We now know from subsequent reporting that the *New York Post*’s article about Hunter Biden was not, as you and your co-signatories alleged, part of a “Russian information

Dear Ms. Mendez:

On October 14, 2020, the *New York Post* published a report detailing how Hunter Biden used the position and influence of his father, now-President Joe Biden, for personal gain with the apparent awareness of President Biden.¹ This article raised doubts about President Biden's earlier denial of ever speaking to his son about his international business dealings.² The *Post* reported on an email in which a Ukrainian businessman urged Hunter Biden to "use [his] influence to convey a message / signal, etc. to stop what we consider to be politically motivated actions."³ In another email, the same businessman thanked Hunter Biden for arranging a meeting with his father, calling it "an honor and pleasure."⁴ The *Post* reported that these emails came from a laptop belonging to Hunter Biden that he had abandoned in a Delaware computer shop.⁵

On October 19, 2020, you signed a public statement attempting to discredit the contents of the *New York Post*'s reporting about Hunter Biden.⁶ This statement emphasized the national security credentials of you and the other signatories, implying that the assertions and conclusions in the statement were grounded in information unavailable to other Americans. Referencing this unique experience, you wrote:

It is for all these reasons that we write to say that the arrival on the US political scene of emails purportedly belonging to Vice President Biden's son Hunter, much of it related to his time serving on the Board of the Ukrainian gas company Burisma, has all the classic earmarks of a Russian information operation.⁷

Your public statement served as a basis for Democrat operatives to try to delegitimize the scandalous allegations about Hunter Biden and the Biden family. On the same day as your statement, *Politico* published a story about the statement, with the conclusive headline, “Hunter Biden story is Russian disinfo, dozens of former intel officials say.”¹⁰ Departing from the statement’s careful wording, the *Politico* story quoted one signatory to the letter as being confident that “once again the Russians are interfering” in our elections.¹¹ Fifteen minutes after *Politico* published its story, Jen Psaki, who now serves as Press Secretary to the President, tweeted a link to the *Politico* story.¹² The Biden campaign repeatedly cited your statement to dismiss the allegations against Hunter Biden.¹³ During the final presidential debate, Vice President Biden also dismissed concerns about Hunter Biden’s international business dealings as part of a “Russian plan.”¹⁴

At best, the public statement was a reckless attempt by you and your co-signatories to erroneously opine about purported election interference. via e-mail

Dear Mr. O'Shea:

On October 14, 2020, the *New York Post* published a report detailing how Hunter Biden used the position and influence of his father, now-President Joe Biden, for personal gain with the apparent awareness of President Biden.¹ This article raised doubts about President Biden's earlier denial of ever speaking to his son about his international business dealings.² The *Post* reported on an email in which a Ukrainian businessman urged Hunter Biden to "use [his] influence to convey a message / signal, etc. to stop what we consider to be politically motivated actions."³ In another email, the same businessman thanked Hunter Biden for arranging a meeting with his father, calling it "an honor and pleasure."⁴ The *Post* reported that these emails came from a laptop belonging to Hunter Biden that he had abandoned in a Delaware computer shop.⁵

On October 19, 2020, you signed a public statement attempting to discredit the contents of the *New York Post*'s reporting about Hunter Biden.⁶ This statement emphasized the national security credentials of you and the other signatories, implying that the assertions and conclusions in the statement were grounded in information unavailable to other Americans. Referencing this unique experience, you wrote:

It is for all these reasons that we write to say that the arrival on the US political scene of emails purportedly belonging to Vice President Biden's son Hunter, much of it related to his time serving on the Board of the Ukrainian gas company Burisma, has all the classic earmarks of a Russian information operation.⁷

Although this statement acknowledged that you had seen no actual “evidence” of Russian involvement with respect to the publication of Hunter Biden’s emails, you nonetheless conveyed a “deep[] suspicio[n] that the Russian government played a significant role in the case.”⁸ Later in the statement, you went further to state a “view”—not merely a suspicion anymore—“that the Russians are involved in the Hunter Biden email issue”⁹

Your public statement served as a basis for Democrat operatives to try to delegitimize the scandalous allegations about Hunter Biden and the Biden family. On the same day as your statement, *Politico* published a story about the statement, with the conclusive headline, “Hunter Biden story is Russian disinfo, dozens of former intel officials say.”¹⁰ Departing from the statement’s careful wording, the *Politico* story quoted one signatory to the letter as being confident that “once again the Russians are interfering” in our elections.¹¹ Fifteen minutes after *Politico* published its story, Jen Psaki, who now serves as Press Secretary to the President, tweeted a link to the *Politico* story.¹² The Biden campaign repeatedly cited your statement to dismiss the allegations against Hunter Biden.¹³ During the final presidential debate, Vice President Biden also dismissed concerns about Hunter Biden’s international business dealings as part of a “Russian plan.”¹⁴

Your public statement was consistent with a broader effort to minimize and censor the *New York Post*’s reporting about Hunter Biden and the Biden family. National news organizations called the allegations about Hunter Biden “dubious” and a “non-scandal”; CBS News reporter Leslie Stahl said the allegations “can’t be verified”; and NPR called it a “waste . . . of time” and a “pure distraction.”¹⁵ Separately, Twitter and Facebook restricted access to the *New York Post*’s reporting about Hunter Biden, with Twitter locking the *Post*’s account and Facebook deferring to a so-called independent fact-check that never occurred.¹⁶ These efforts likely affected public awareness of the serious allegations surrounding the Biden family in the crucial weeks before the 2020 election.

At best, the public statement was a reckless attempt by you and your co-signatories to erroneously opine about purported election interference. Dear Mr. Priess:

On October 14, 2020, the *New York Post* published a report detailing how Hunter Biden used the position and influence of his father, now-President Joe Biden, for personal gain with the apparent awareness of President Biden.¹ This article raised doubts about President Biden's earlier denial of ever speaking to his son about his international business dealings.² The *Post* reported on an email in which a Ukrainian businessman urged Hunter Biden to "use [his] influence to convey a message / signal, etc. to stop what we consider to be politically motivated actions."³ In another email, the same businessman thanked Hunter Biden for arranging a meeting with his father, calling it "an honor and pleasure."⁴ The *Post* reported that these emails came from a laptop belonging to Hunter Biden that he had abandoned in a Delaware computer shop.⁵

Dear Mr. Savos:

On October 14, 2020, the *New York Post* published a report detailing how Hunter Biden used the position and influence of his father, now-President Joe Biden, for personal gain with the apparent awareness of President Biden.¹ This article raised doubts about President Biden's earlier denial of ever speaking to his son about his international business dealings.² The *Post* reported on an email in which a Ukrainian businessman urged Hunter Biden to "use [his] influence to convey a message / signal, etc. to stop what we consider to be politically motivated actions."³ In another email, the same businessman thanked Hunter Biden for arranging a meeting with his father, calling it "an honor and pleasure."⁴ The *Post* reported that these emails came from a laptop belonging to Hunter Biden that he had abandoned in a Delaware computer shop.⁵

On October 19, 2020, you signed a public statement attempting to discredit the contents of the *New York Post*'s reporting about Hunter Biden.⁶ This statement emphasized the national security credentials of you and the other signatories, implying that the assertions and conclusions in the statement were grounded in information unavailable to other Americans. Referencing this unique experience, you wrote:

It is for all these reasons that we write to say that the arrival on the US political scene of emails purportedly belonging to Vice President Biden's son Hunter, much of it related to his time serving on the Board of the Ukrainian gas company Burisma, has all the classic earmarks of a Russian information operation.⁷

Although this statement acknowledged that you had seen no actual “evidence” of Russian involvement with respect to the publication of Hunter Biden’s emails, you nonetheless conveyed a “deep[] suspicio[n] that the Russian government played a significant role in the case.”⁸ Later in the statement, you went further to state a “view”—not merely a suspicion anymore—“that the Russians are involved in the Hunter Biden email issue”⁹

Your public statement served as a basis for Democrat operatives to try to delegitimize the scandalous allegations about Hunter Biden and the Biden family. On the same day as your statement, *Politico* published a story about the statement, with the conclusive headline, “Hunter Biden story is Russian disinfo, dozens of former intel officials say.”¹⁰ Departing from the statement’s careful wording, the *Politico* story quoted one signatory to the letter as being confident that “once again the Russians are interfering” in our elections.¹¹ Fifteen minutes after *Politico* published its story, Jen Psaki, who now serves as Press Secretary to the President, tweeted a link to the *Politico* story.¹² The Biden campaign repeatedly cited your statement to dismiss the allegations against Hunter Biden.¹³ During the final presidential debate, Vice President Biden also dismissed concerns about Hunter Biden’s international business dealings as part of a “Russian plan.”¹⁴

Your public statement was consistent with a broader effort to minimize and censor the *New York Post*’s reporting about Hunter Biden and the Biden family. National news organizations called the allegations about Hunter Biden “dubious” and a “non-scandal”; CBS News reporter Leslie Stahl said the allegations “can’t be verified”; and NPR called it a “waste . . . of time” and a “pure distraction.”¹⁵ Separately, Twitter and Facebook restricted access to the *New York Post*’s reporting about Hunter Biden, with Twitter locking the *Post*’s account and Facebook deferring to a so-called independent fact-check that never occurred.¹⁶ These efforts likely affected public awareness of the serious allegations surrounding the Biden family in the crucial weeks before the 2020 election.

We now know from subsequent reporting that the *New York Post*’s article about Hunter Biden was not, as you and your co-signatories alleged, part of a “Russian information

At best, the public statement was a reckless attempt by you and your co-signatories to erroneously opine about purported election interference. At worse—and more likely—the public statement was a deliberate and coordinated effort to mislead the American people about information relevant to the 2020 presidential election by invoking your national security experience to falsely suggest that the allegations about Hunter Biden were not based in fact.

The concerted effort to suppress public dissemination of the serious allegations about Hunter Biden and the Biden family, as first reported in October 2020 by the *New York Post*, was a grave disservice to American citizens’ informed participation in our democracy. Mr. Rodney Snyder
via e-mail

Dear Mr. Snyder:

On October 14, 2020, the *New York Post* published a report detailing how Hunter Biden used the position and influence of his father, now-President Joe Biden, for personal gain with the apparent awareness of President Biden.¹ This article raised doubts about President Biden's earlier denial of ever speaking to his son about his international business dealings.² The *Post* reported on an email in which a Ukrainian businessman urged Hunter Biden to "use [his] influence to convey a message / signal, etc. to stop what we consider to be politically motivated actions."³ In another email, the same businessman thanked Hunter Biden for arranging a meeting with his father, calling it "an honor and pleasure."⁴ The *Post* reported that these emails came from a laptop belonging to Hunter Biden that he had abandoned in a Delaware computer shop.⁵

On October 19, 2020, you signed a public statement attempting to discredit the contents of the *New York Post*'s reporting about Hunter Biden.⁶ This statement emphasized the national security credentials of you and the other signatories, implying that the assertions and conclusions in the statement were grounded in information unavailable to other Americans. Referencing this unique experience, you wrote:

It is for all these reasons that we write to say that the arrival on the US political scene of emails purportedly belonging to Vice President Biden's son Hunter, much of it related to his time serving on the Board of the Ukrainian gas company Burisma, has all the classic earmarks of a Russian information operation.⁷

Although this statement acknowledged that you had seen no actual “evidence” of Russian involvement with respect to the publication of Hunter Biden’s emails, you nonetheless conveyed a “deep[] suspicio[n] that the Russian government played a significant role in the case.”⁸ Later in the statement, you went further to state a “view”—not merely a suspicion anymore—“that the Russians are involved in the Hunter Biden email issue”⁹

Your public statement served as a basis for Democrat operatives to try to delegitimize the scandalous allegations about Hunter Biden and the Biden family. On the same day as your statement, *Politico* published a story about the statement, with the conclusive headline, “Hunter Biden story is Russian disinfo, dozens of former intel officials say.”¹⁰ Departing from the statement’s careful wording, the *Politico* story quoted one signatory to the letter as being confident that “once again the Russians are interfering” in our elections.¹¹ Fifteen minutes after *Politico* published its story, Jen Psaki, who now serves as Press Secretary to the President, tweeted a link to the *Politico* story.¹² The Biden campaign repeatedly cited your statement to dismiss the allegations against Hunter Biden.¹³ During the final presidential debate, Vice President Biden also dismissed concerns about Hunter Biden’s international business dealings as part of a “Russian plan.”¹⁴

Your public statement was consistent with a broader effort to minimize and censor the *New York Post*’s reporting about Hunter Biden and the Biden family. National news organizations called the allegations about Hunter Biden “dubious” and a “non-scandal”; CBS News reporter Leslie Stahl said the allegations “can’t be verified”; and NPR called it a “waste . . . of time” and a “pure distraction.”¹⁵ Separately, Twitter and Facebook restricted access to the *New York Post*’s reporting about Hunter Biden, with Twitter locking the *Post*’s account and Facebook deferring to a so-called independent fact-check that never occurred.¹⁶ These efforts likely affected public awareness of the serious allegations surrounding the Biden family in the crucial weeks before the 2020 election.

We now know from subsequent reporting that the *New York Post*’s article about Hunter Biden was not, as you and your co-signatories alleged, part of a “Russian information

At best, the public statement was a reckless attempt by you and your co-signatories to erroneously opine about purported election interference. At worse—and more likely—the public statement was a deliberate and coordinated effort to mislead the American people about information relevant to the 2020 presidential election by invoking your national security experience to falsely suggest that the allegations about Hunter Biden were not based in fact.

The concerted effort to suppress public dissemination of the serious allegations about Hunter Biden and the Biden family, as first reported in October 2020 by the *New York Post*, was a grave disservice to American citizens’ informed participation in our democracy. We are investigating the role that the public statement played in this effort. Accordingly, please provide the following material:

1. Identify all people with whom you communicated about the inception, drafting, editing, signing, publishing, or promotion of the “Public Statement on the Hunter Biden Emails” dated October 19, 2020; and
2. Produce all documents and communications referring or relating to the “Public Statement on the Hunter Biden Emails” dated October 19, 2020.

Please produce this material as soon as possible but no later than 5:00 p.m. on April 20, 2022. In addition, we request that you take all reasonable steps to preserve records that may be potentially responsive to this inquiry.

Mr. Russell Travers
c/o National Counterterrorism Center
via e-mail

Dear Mr. Travers:

On October 14, 2020, the *New York Post* published a report detailing how Hunter Biden used the position and influence of his father, now-President Joe Biden, for personal gain with the apparent awareness of President Biden.¹ This article raised doubts about President Biden's earlier denial of ever speaking to his son about his international business dealings.² The *Post* reported on an email in which a Ukrainian businessman urged Hunter Biden to "use [his] influence to convey a message / signal, etc. to stop what we consider to be politically motivated actions."³ In another email, the same businessman thanked Hunter Biden for arranging a meeting with his father, calling it "an honor and pleasure."⁴ The *Post* reported that these emails came from a laptop belonging to Hunter Biden that he had abandoned in a Delaware computer shop.⁵

On October 19, 2020, you signed a public statement attempting to discredit the contents of the *New York Post*'s reporting about Hunter Biden.⁶ This statement emphasized the national security credentials of you and the other signatories, implying that the assertions and conclusions in the statement were grounded in information unavailable to other Americans. Referencing this unique experience, you wrote:

It is for all these reasons that we write to say that the arrival on the US political scene of emails purportedly belonging to Vice President Biden's son Hunter, much of it related to his time serving on the Board of the Ukrainian gas company Burisma, has all the classic earmarks of a Russian information operation.⁷

Although this statement acknowledged that you had seen no actual “evidence” of Russian involvement with respect to the publication of Hunter Biden’s emails, you nonetheless conveyed a “deep[] suspicio[n] that the Russian government played a significant role in the case.”⁸ Later in the statement, you went further to state a “view”—not merely a suspicion anymore—“that the Russians are involved in the Hunter Biden email issue”⁹

Your public statement served as a basis for Democrat operatives to try to delegitimize the scandalous allegations about Hunter Biden and the Biden family. On the same day as your statement, *Politico* published a story about the statement, with the conclusive headline, “Hunter Biden story is Russian disinfo, dozens of former intel officials say.”¹⁰ Departing from the statement’s careful wording, the *Politico* story quoted one signatory to the letter as being confident that “once again the Russians are interfering” in our elections.¹¹ Fifteen minutes after *Politico* published its story, Jen Psaki, who now serves as Press Secretary to the President, tweeted a link to the *Politico* story.¹² The Biden campaign repeatedly cited your statement to dismiss the allegations against Hunter Biden.¹³ During the final presidential debate, Vice President Biden also dismissed concerns about Hunter Biden’s international business dealings as part of a “Russian plan.”¹⁴

Your public statement was consistent with a broader effort to minimize and censor the *New York Post*’s reporting about Hunter Biden and the Biden family. National news organizations called the allegations about Hunter Biden “dubious” and a “non-scandal”; CBS News reporter Leslie Stahl said the allegations “can’t be verified”; and NPR called it a “waste . . . of time” and a “pure distraction.”¹⁵ Separately, Twitter and Facebook restricted access to the *New York Post*’s reporting about Hunter Biden, with Twitter locking the *Post*’s account and Facebook deferring to a so-called independent fact-check that never occurred.¹⁶ These efforts likely affected public awareness of the serious allegations surrounding the Biden family in the crucial weeks before the 2020 election.

We now know from subsequent reporting that the *New York Post*’s article about Hunter Biden was not, as you and your co-signatories alleged, part of a “Russian information

At best, the public statement was a reckless attempt by you and your co-signatories to erroneously opine about purported election interference. At worse—and more likely—the public statement was a deliberate and coordinated effort to mislead the American people about information relevant to the 2020 presidential election by invoking your national security experience to falsely suggest that the allegations about Hunter Biden were not based in fact.

The concerted effort to suppress public dissemination of the serious allegations about Hunter Biden and the Biden family, as first reported in October 2020 by the *New York Post*, was a grave disservice to American citizens’ informed participation in our democracy. We are investigating the role that the public statement played in this effort. Accordingly, please provide the following material:

2. Produce all documents and communications referring or relating to the “Public Statement on the Hunter Biden Emails” dated October 19, 2020.

The Honorable Michael G. Vickers
2001 Jefferson Davis Hwy
Suite 400
Arlington, VA 22202

Dear Mr. Vickers:

On October 14, 2020, the *New York Post* published a report detailing how Hunter Biden used the position and influence of his father, now-President Joe Biden, for personal gain with the apparent awareness of President Biden.¹ This article raised doubts about President Biden's earlier denial of ever speaking to his son about his international business dealings.² The *Post* reported on an email in which a Ukrainian businessman urged Hunter Biden to "use [his] influence to convey a message / signal, etc. to stop what we consider to be politically motivated actions."³ In another email, the same businessman thanked Hunter Biden for arranging a meeting with his father, calling it "an honor and pleasure."⁴ The *Post* reported that these emails came from a laptop belonging to Hunter Biden that he had abandoned in a Delaware computer shop.⁵

On October 19, 2020, you signed a public statement attempting to discredit the contents of the *New York Post*'s reporting about Hunter Biden.⁶ This statement emphasized the national security credentials of you and the other signatories, implying that the assertions and conclusions in the statement were grounded in information unavailable to other Americans. Referencing this unique experience, you wrote:

It is for all these reasons that we write to say that the arrival on the US political scene of emails purportedly belonging to Vice President Biden's son Hunter, much of it related to his time serving on the Board of the Ukrainian gas company Burisma, has all the classic earmarks of a Russian information operation.⁷

Although this statement acknowledged that you had seen no actual “evidence” of Russian involvement with respect to the publication of Hunter Biden’s emails, you nonetheless conveyed a “deep[] suspicio[n] that the Russian government played a significant role in the case.”⁸ Later in the statement, you went further to state a “view”—not merely a suspicion anymore—“that the Russians are involved in the Hunter Biden email issue”⁹

Your public statement served as a basis for Democrat operatives to try to delegitimize the scandalous allegations about Hunter Biden and the Biden family. On the same day as your statement, *Politico* published a story about the statement, with the conclusive headline, “Hunter Biden story is Russian disinfo, dozens of former intel officials say.”¹⁰ Departing from the statement’s careful wording, the *Politico* story quoted one signatory to the letter as being confident that “once again the Russians are interfering” in our elections.¹¹ Fifteen minutes after *Politico* published its story, Jen Psaki, who now serves as Press Secretary to the President, tweeted a link to the *Politico* story.¹² The Biden campaign repeatedly cited your statement to dismiss the allegations against Hunter Biden.¹³ During the final presidential debate, Vice President Biden also dismissed concerns about Hunter Biden’s international business dealings as part of a “Russian plan.”¹⁴

Your public statement was consistent with a broader effort to minimize and censor the *New York Post*’s reporting about Hunter Biden and the Biden family. National news organizations called the allegations about Hunter Biden “dubious” and a “non-scandal”; CBS News reporter Leslie Stahl said the allegations “can’t be verified”; and NPR called it a “waste . . . of time” and a “pure distraction.”¹⁵ Separately, Twitter and Facebook restricted access to the *New York Post*’s reporting about Hunter Biden, with Twitter locking the *Post*’s account and Facebook deferring to a so-called independent fact-check that never occurred.¹⁶ These efforts likely affected public awareness of the serious allegations surrounding the Biden family in the crucial weeks before the 2020 election.

We now know from subsequent reporting that the *New York Post*’s article about Hunter Biden was not, as you and your co-signatories alleged, part of a “Russian information

At best, the public statement was a reckless attempt by you and your co-signatories to erroneously opine about purported election interference. At worse—and more likely—the public statement was a deliberate and coordinated effort to mislead the American people about information relevant to the 2020 presidential election by invoking your national security experience to falsely suggest that the allegations about Hunter Biden were not based in fact.

The concerted effort to suppress public dissemination of the serious allegations about Hunter Biden and the Biden family, as first reported in October 2020 by the *New York Post*, was a grave disservice to American citizens’ informed participation in our democracy. We are investigating the role that the public statement played in this effort. Accordingly, please provide the following material:

2. Produce all documents and communications referring or relating to the “Public Statement on the Hunter Biden Emails” dated October 19, 2020.

At worse—and more likely—the public statement was a deliberate and coordinated effort to mislead the American people about information relevant to the 2020 presidential election by invoking your national security experience to falsely suggest that the allegations about Hunter Biden were not based in fact.

The concerted effort to suppress public dissemination of the serious allegations about Hunter Biden and the Biden family, as first reported in October 2020 by the *New York Post*, was a grave disservice to American citizens’ informed participation in our democracy. We are investigating the role that the public statement played in this effort. Accordingly, please provide the following material:

1. Identify all people with whom you communicated about the inception, drafting, editing, signing, publishing, or promotion of the “Public Statement on the Hunter Biden Emails” dated October 19, 2020; and
2. Produce all documents and communications referring or relating to the “Public Statement on the Hunter Biden Emails” dated October 19, 2020.

Please produce this material as soon as possible but no later than 5:00 p.m. on April 20, 2022. In addition, we request that you take all reasonable steps to preserve records that may be potentially responsive to this inquiry.

Thank you for your attention to this matter.

Sincerely,

Jim Jordan
